## Information Sheet

The sale of the Business is preferred to be structured as a stock sale, but the owner is willing to consider other alternatives.

The Business provides expertise to customers throughout the upper Midwest by providing services that include repair services and parts for hydraulic systems including cylinders, hand and power pumps, high-pressure pumps and cylinder combinations, valves, presses, and mechanical jacks to commercial and industrial markets. The Business maintains inventory components for hydraulic/pneumatic/mechanical and complete systems for welding, machining and fabricating, testing facilities for all its repaired and manufactured equipment.

Major customers are in the agricultural, industrial, mining and power plant industries.

The Business operates out of one facility and under one management team.

The Business repairs all makes and models of hydraulic cylinders, valves, pumps and motors and by creating custom hoses made-to-order.

Superior technology combined with its highly experienced workforce results in rapid product turnaround for its customers.

The Business has evolved with the industry. Today it offers services including:

- Telescoping cylinders
- Large bore cylinders
- Multi-stage cylinders
- Rod straightening
- Polishing
- Welding
- Bore welding
